Certified Registered Central Service Technician (CRCST) certification is designed to recognize individuals who have demonstrated the experience, knowledge, and skills necessary to provide competent services as a central service technician. CRCST’s are integral members of the healthcare team who are responsible for decontaminating, inspecting, assembling, disassembling, packaging, and sterilizing reusable surgical instruments or devices in a health care facility that are essential for patient safety.

To earn CRCST certification, candidates are required to successfully demonstrate skills through completion of hands-on work experience as well as successful completion of an examination developed to measure the understanding of general central services and infection prevention topics. CRCST ceritifcants are required to recertify annually through completion of continuing education requirements.
