

Certified Endoscope Reprocessor (CER) Exam

Revised March 2021; 4 Pages

CER certification is designed to recognize individuals who have demonstrated the knowledge and skills necessary to pre-clean, test, decontaminate, inspect, disinfect and/or sterilize, transport, and store endoscopes in accordance with industry standards, guidelines and regulations, and manufacturers' instructions for use. CER's are crucial members of the healthcare team who are responsible for endoscope preparation, which is critical for patient safety in a healthcare facility.

To earn CER certification, candidates are required to successfully demonstrate skills through completion of hands-on work experience as well as successful completion of an examination developed to measure the understanding of endoscope care and handling and infection prevention. Those certified as a CER are required to recertify annually through completion of continuing education requirements.

Please read and complete each section fully and accurately in clear, legible handwriting or type. The completed application and full payment must be received for processing.

Completed applications will be processed within three weeks. Information on how to schedule your exam, as well as your window of eligibility, will be sent to the email provided, and mailed to your preferred address.
