- 1971 LT COL BURT DODSON, USAF appointed Chairman of National Examining Board for BMET's with Goal of Designing a Certification Exam

ST79: AAMI'S LANDMARK RECOMMENDED PRACTICE FOR HOSPITAL STEAM STERILIZATION

AAMI's most prolific standards are an important way for industry, through collaboration and consensus, to serve its customers healthcare professionals, regulatory bodies, and patients. AAMI standards, recommended practices, and technical information reports for medical devices, standards and recommended practices represent a consensus of opinion and have been approved by the American National Standards Institute (ANSI) as American National Standards. AAMI also administers a number of international technical committees of the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC), as well as U.S. Technical Advisory Groups (TAGs).
